

#IWillAccelerate

Successful Career Navigation for your Diverse Talent.

In these volatile, uncertain, complex and ambiguous (VUCA) times, staff need support and challenge to help them navigate their careers. This is particularly important for BAME Staff, who according to a 2017 CIPD survey, experience multiple barriers and have a race pay gap to contend with.

Organisations that want to stay competitive, creative and relevant to their customers, need to increase representation of BAME staff at all levels.

With over a decade's experience in Leadership & Career development, we have crafted an accessible and practical programme to enable successful career navigation for your diverse talent. Accompanied by your company wide drive for inclusion, it will enable all staff to thrive.

"So often, black staff hold back for a multitude of reasons: crises of confidence, imposter syndrome, lack of connections, discrimination. Speaking to someone externally and trained in career advice and coaching is important and necessary as it helps to level the playing field."

Annessa Mahmood,
Manager at the National
Union of Students
